

ITAL MACHINERY

MACCHINA ITALIANA

**TANK, PIPING
AND
INSULATION
SYSTEMS**

Tanks, in which bitumen, PMB, emulsion, fuel oil, diesel and other similar materials are stored, can be produced at desired capacities in compliance with your project needs. These tanks are flexible, high quality and long lasting in terms of heating coils, insulation and similar properties.

MAIN FEATURES

- ◆ **Horizontal or vertical**, electrically or thermal oil heated designs and production according to your needs.
- ◆ **Horizontal or vertical** tanks can be equipped with agitators according to project needs.
- ◆ **Pressure and leakage tests** are applied to each tank produced and the required quality documentation is available.
- ◆ **Only, high quality drawn** steel pipe heating coils are used in our thermal oil heated tanks.
- ◆ **High quality bitumen pumps**, valves and equipment are available in our installations.

**TANK, PIPING AND
INSULATION
SYSTEMS**

TYPES AND FEATURES

◆ Horizontal tanks

38m³ - 40' Open Top Container
50m³ - Standart Trailer
100m³ - Mega Trailer
Thermal Oil or Electrical Heating

◆ Vertical tanks

50m³ - Standart Trailer
60m³ - Standart Trailer
80m³ - Mega Trailer
Thermal Oil or Electrical Heating

MOBILE BITUMEN PARK

Main Features:

- ◆ Mounted on 1-axle chassis.
- ◆ 50m³ capacity bitumen tank with 35m² heating surface.
- ◆ 600.000 kCal/h thermal oil heater.
- ◆ Bitumen pump & three way valve for asphalt plant feeding with 20m bitumen piping.
- ◆ Bitumen truck unloading system.
